

# Lahey Outpatient Center, Danvers Vein Health Clinic

**Achy legs, painful varicose veins, unsightly spider veins?  
Our team of specialists at the Vein Program is here for you.**

The Vein Program provides diagnosis, treatment, and follow-up care for women and men with venous disease. Offering the latest treatment techniques for spider veins, varicose veins, and other leg vein problems – many of which can be done in under an hour and are virtually pain-free.

**FREE screenings will be offered for a limited time.  
To schedule your free screening, please call 978.816.2988 and press 1.**
